PRODUCT INSTALLATION

Installation Notes

- The appliance requires 2 professional installers to install;
- Installation or maintenance must be performed by qualified technicians, in compliance with the manufacturer's instructions and local safety regulations. No part of the appliance may be repaired or replaced unless specifically stated in the operating manual;
- Once the installation is complete, the electrical components must no longer be touched by the user;
- Before connecting the appliance to the electrical network: check the nameplate (at the bottom of the appliance) to ensure that the voltage and power match the network values and that the connected socket is suitable.
- This appliance should be connected to a circuit containing an isolating switch to completely disconnect the power supply.
- Failure to properly install the appliance may invalidate any warranty or liability claim.
- The included material should be used for the best performance. If the air channels will be enlarged, the performance of the hood will be different.
- In case of a repair on the appliance, it is necessary to take care that the hood and duct is free accessible.

Installation Dimension Requirements

Unit: mm

EN

Installation Dimension Requirements

In order to drain liquids conveniently, it is recommended to keep a minimum distance of 40mm between the baffle and the bottom of the hob. Follow the requirements below.

Request 1: Gap=50-A-B $\geq$ 5mm

Request 2: C $\geq$ 40mm easy to unscrew the Rubber plug

- ⚠ There are ventilation holes around outside of the hob. You must ensure these holes are not blocked by the worktop when you put the hob into position.
- ⚠
- Be aware that the glue that join the plastic or wooden material to the furniture, has to resist to temperature not below 150°C, to avoid the unstuck of the paneling.
 - The rear wall, adjacent and surrounding surfaces must therefore be able to withstand an temperature of 90°C.

CAUTIONS

1. The induction hotplate must be installed by qualified personnel or technicians. We have professionals at your service. Please never conduct the operation by yourself.
2. The hob will not be installed directly above a dishwasher, fridge, freezer, washing machine or clothes dryer, as the humidity may damage the hob electronics
3. The induction hotplate shall be installed such that better heat radiation can be ensured to enhance its reliability.
4. The wall and induced heating zone above the table surface shall withstand heat.
5. To avoid any damage, the sandwich layer and adhesive must be resistant to heat.
6. A steam cleaner is not to be used.

Connecting the Hob to the Mains Power Supply

EN

-  This hob must be connected to the mains power supply only by a suitably qualified person. Before connecting the hob to the mains power supply, check that:
1. The domestic wiring system is suitable for the power drawn by the hob.
 2. The voltage corresponds to the value given in the rating plate
 3. The power supply cable sections can withstand the load specified on the rating plate.
- To connect the hob to the mains power supply, do not use adapters, reducers, or branching devices, as they can cause overheating and fire.
- The power supply cable must not touch any hot parts and must be positioned so that its temperature will not exceed 75°C at any point.
-  Check with an electrician whether the domestic wiring system is suitable without alterations. Any alterations must only be made by a qualified electrician.
-  • If the total number of heating unit of the appliance you choose is not less than 4, the appliance can be connected directly to the mains by single-phase electric connection, as shown below.
- If the cable is damaged or to be replaced, the operation must be carried out the by after-sale agent with dedicated tools to avoid any accidents.
 - If the appliance is being connected directly to the mains an omnipolar circuit-breaker must be installed with a minimum opening of 3mm between contacts.
 - The installer must ensure that the correct electrical connection has been made and that it is compliant with safety regulations.
 - The cable must not be bent or compressed.
 - The cable must be checked regularly and replaced by authorised technicians only.

 The bottom surface and the power cord of the hob are not accessible after installation.

DISPOSAL AND RECYCLING

Important instructions for environment

Compliance with the WEEE Directive and Disposing of the Waster Product:

This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waster electrical and electronic equipment (WEEE).

This symbol indicates that this product shall not be disposed with other household wastes at the end of its service life. Used device must be returned to official collection point for recycling of electrical electronic devices. To find these collection systems please contact to your local authorities or retailer where the product was purchased. Each household performs important role in recovering and recycling of old appliance. Appropriate disposal of used appliance helps prevent potential negative consequences for the environment and human health.

EN

Compliance with RoHS Directive

The product you have purchased complies with EU RoHS Directive (2011/65/EU). It does not contain harmful and prohibited materials specified in the Directive.

Package information

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

DATA PROTECTION NOTICE

For the provision of the services agreed with the customer, we agree to comply without restriction with all stipulations of applicable data protection law, in line with agreed countries within which services to the customer will be delivered, as well as, where applicable, the EU General Data Protection Regulation (GDPR).

Generally, our data processing is to fulfil our obligation under contract with you and for product safety reasons, to safeguard your rights in connection with warranty and product registration questions. In some cases, but only if appropriate data protection is ensured, personal data might be transferred to recipients located outside of the European Economic Area.

Further information are provided on request. You can contact our Data Protection Officer via **MideaDPO@midea.com**. To exercise your rights such as right to object your personal data being processed for direct marketing purposes, please contact us via **MideaDPO@midea.com**.
